

SURREY
COUNTY COUNCIL

FIRST STEP (GREEN) VOLUNTEERING

Are you

- Keen to be connected to nature for your health and wellbeing?
- Looking to gain experience and learn new skills?
- Keen to meet new people whilst doing something worthwhile?
- Considering a career in the environment sector?
- Motivated by the climate crisis and biodiversity loss?
- Unsure how you can get involved?

If you answered 'YES' to any of these, we have made it simple to attend one of many different taster sessions.

Taster sessions

You could try community gardening, heathland management, clearing footpaths, hedge planting, micro volunteering, climate action, or even sheep MOTs!

You're guaranteed a warm welcome, will experience new things, and can find out more about ongoing environmental volunteering opportunities in Surrey.

Visit [First Step Volunteering](#) to book onto a taster session or ask us about a bespoke session for your group.
